

BASIC INFORMATION

Order number: 0670

Use:

This self-adhesive aluminium tape is designed to connect ventilation system parts. It provides immediate adhesion to ventilation and air conditioning systems (sound and heat insulation).

Material:

The tape is made of aluminium foil with an adhesive layer.

Tape thickness: 0.06mm

Cling (N/cm): 8

Max Stretch (%): 7

Heat resistance: 120 °C

Product composition:

Tape Carrier: Aluminium Foil

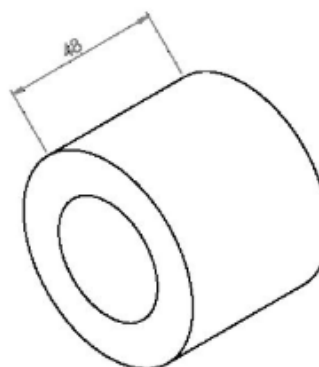

Adhesive: Dissolved Rubber

Packaging:

We offer the tape in a length of 10 m and a width of 48 mm, suitable for short air conditioning ducts.

Storage conditions:

The tape should be stored in its original packaging away from direct sunlight and placed in a clean and dry place at a temperature of 20°C ± 5°C.
