

BASIC INFORMATION

The AV DRIM axial fan is designed for ventilation of living rooms, technical facilities, cellars, attics, offices and others. The fan has interchangeable cover panels for a unique and distinctive design that fits into any room. It can be installed in the wall or ceiling. The fan is fitted with high-quality ball bearings for a longer service life. It is also available in a version with a timer.

Installation:

DRIM AV fans are installed in ducts of the appropriate diameter. Connection to the electrical installation must be carried out by qualified personnel – see installation instructions.
